A portrait of the world of the coyote discusses the animal's history, its wide-ranging habitats, and its possible future.

For two years naturalist/photographer Hope Ryden camped in remote areas of the West observing and photographing coyotes. With eloquence and clarity, she describes the private life of this much-maligned animal in a book that has been heralded as the classic treatise on the subject. While observing her controversial subjects, Hope endured hardships and peril, events she weaves into her beautiful story. "As full of charm and tenacious inquisitiveness as the appealing animal she pleads to see allowed to live." -The Washington Post "A faultless and reasoned attitude." -The New York Times

Young readers will meet coyotes and learn where these animals live, how they stay safe, and the different ways their howls help them communicate.

Some dogs have a bark bigger than their bite. But Sweetie, The Great Dane, can't afford to bark -- or bite. After three little nips and three masters, the next stop is the pound. So when the burglar comes calling, he waves his tail. When coyotes come prowling, he tries to make peace -- as they howl in scorn. They promise they'll return -- to eat his food, his friends, Red the Irish Setter, Poky the Beagle, and Sweetie for dessert! If Sweetie can't protect them they'll all perish! How can he outfox twelve hungry coyotes?

She stole a dog. He stole her heart. From Library Journal Women's Summer Reading and Romantic Times Editor's Choice author Marta Acosta comes a "heart-breaking and heart-warming" story about taking risks, making friends, and finding love, while staying true to yourself. Broken-hearted Maddie Whitney, aka Mad Girl, is a dog trainer whose significant behavioral issues make her an outcast in the small rural California town of Coyote Run. When Maddie discovers a murdered woman in a field, she impulsively claims that she's an animal psychic to promote her canine rehabilitation center and save the family ranch. Now the girl who can't make eye contact is the focus of the wrong kind of attention. Maddie's forced to start a Search and Rescue team with her ex-girlfriend's twin brother, Oliver, a hostile sheriff, or risk losing her beloved former military dog. As she trains Oliver to be a dog handler, their relationship evolves from animosity to respect and more. Meanwhile, Maddie's younger sister, Kenzie, who has always cared for Maddie, yearns for a life of her own, and the unknown murderer believes the animal psychic will discover his identity. Difficult and complicated Maddie makes new friends, faces life-threatening dangers, and tests her

ability to function without the protective walls she's built around her. "Amazing! A gripping read that will have your heart racing from start to finish." --James Sinclair, *Autistic & Unapologetic Praise for Marta Acosta's Books* "Acosta's talent is staggering. In each of her Casa Dracula books, she shows readers all over again just how funny, ridiculous, and thoroughly gifted she is at plotting." --*Romantic Times* "A breath of fresh air in a genre marked by creaky gender relations and unchallenged class stratification." --*Kirkus Reviews* "Her well-drawn characters shine... Acosta's story is an impressive contender in the crowded YA field." --*Publishers Weekly*

In Native American traditions, Coyote is the Trickster - the one you want to avoid but love to hear stories about. In the Aztec tradition, Coyote is "God's Dog." As a minor deity, Coyote is at home in the world we know and in the world of magic and the gods. In this series of coyote adventures, he gets involved with a parish minister in Santa Fe, New Mexico. They meet for donuts and go on drives through the desert and mountains in an old VW Thing. They discuss just what you'd expect from a minor deity and a philosophical clergyman - death, lying, progress, why Jesus was crucified, what money will buy, and the nature of the universe.

A raucous and fierce western by Bojack Horseman producer/production designer and award-winning cartoonist Coyote is a dreamer and a drama queen, brazen and brave, faithful yet fiercely independent. She beats her own drum and sews her own crop tops. A gifted equestrian, she's half dog, half coyote, and all power. With the help of her trusty steed, Red, there's not much that's too big for her to bite off, chew up, and spit out right into your face, if you deserve it. But when Coyote and Red find themselves on the run from a trio of vengeful bad dogs, get clobbered by arrows, and are tragically separated, our protagonist is left fighting for her life and longing for her displaced best friend. Taken in by a wolf clan, Coyote may be wounded, but it's not long before she's back on the open road to track down Red and tackle the dogs who wronged her. An homage to and a lampoon of Westerns like *Butch Cassidy and the Sundance Kid*, Lisa Hanawalt's *Coyote Doggirl* is a self-aware, playful subversion of tropes. As our fallible hero attempts to understand the culture of the wolves, we see a journey in understanding and misunderstanding, adopting and co-opting. Uncomfortable at times but nonetheless rewarding and empowering, the story of these flawed, anthropomorphized characters is nothing if not relentlessly hilarious and heartbreakingly human. Told in Hanawalt's technicolor absurdist style, *Coyote Doggirl* is not just a send-up of the Western genre but a deeply personal story told by an enormously talented cartoonist.

From tree-spiking old-growth forests to "cracking" desert dams, *Earth First!* redefined environmentalism in America. Susan Zakin's fast-paced tale of these scruffy radicals and their suit-and-tie counterparts in Washington, D.C., has been described as an unholy marriage of Hunter S. Thompson and Tom Wolfe. The hipster cowboys who founded *Earth First!* were the first people to sound the alarm on globalization, extinction, and other major environmental issues that face us today. Zakin's gonzo yet impeccably researched account of the rocky trail leading to the morning when FBI agents roused *Earth First!* founder Dave Foreman from his bed at gunpoint is essential reading for anyone who cares about mountains, deserts, and freedom.
