If you like Harry Potter and/or if you like theories in philosophy, this is a great book to read to merge those topics together. There are various authors writing this book and they all do a great job of taking a philosophical topic, explaining it and then applying that to examples within the Harry Potter series, but only through Order of the Phoenix.

In Harry Potter and Philosophy, 17 philosophical experts unlock some of Hogwarts' secret panels and uncover surprising insights that are enlightening both for wizards and the most discerning muggles. You don't need a diploma in arithmancy, the friendship of a hippogriff, or even a Hogwarts Library card to discover amazing and arcane secrets in the labyrinthine world of Harry Potter.

Urging readers of the Harry Potter series to dig deeper than wizards, boggarts, and dementors, the authors of this unique guide collect the musings of seventeen philosophers on the series, who cover a wide range of Potter-related philosophical issues, including the difference between good and evil, the ethics of sorcery, and Aristotle's own school for wizards. Original.

You don't need a diploma in arithmancy, the friendship of a hippogriff, or even a Hogwarts Library card to discover amazing and arcane secrets in the labyrinthine world of Harry Potter. In the book you now hold in your hands (or for more advanced students, the book you have levitated into a suitable position while you feed snacks to your owl), seventeen philosophical scholars unlock some of Hogwarts secret panels, displaying fresh insights enlightening both for sorcerers and for the more discerning Muggles. Among the occult lore here revealed, behold the best recipe for true courage, proof that self-deception does not yield happiness, how ethics can be applied to the branch of technology known as magic, why the Mirror of Erised isn't adequate for real life, whether prophecy rules out free choice, and what dementors and boggarts can teach us about joy, fear, and the soul. All the pages of this book are acid-free and have been individually bewitched with an anti-befuddlement incantation. Don't forget to keep your wand primed and read between the lines. Failure to observe these precautions may invite the malign influence of Vol sorry, He Who Must Not Be Named. "Harry Potter and Philosophy is the most enjoyable HP spin-off I've read and I've read most of them. Some chapters are so full of good reflections, clear thinking, and reliable scholarship, I couldn't resist reading entire passages aloud. Our family plans to read these thought-provoking essays at the dinner table, sparking intelligent conversation with our teen- and college-aged children Harry Potter fans all."

A philosophical exploration of the entire seven-book Harry Potter series Harry Potter has been heralded as one of the most popular book series of all time and the philosophical nature of Harry, Hermione, and Ron's quest to rid the world of its ultimate evil is one of the many things that make this series special. The Ultimate Harry Potter and Philosophy covers all seven titles in J.K. Rowling's groundbreaking series and takes fans back to Godric's Hollow to discuss life after death, to consider what moral reasoning drove Harry to choose death, and to debate whether Sirius Black is a man or a dog. With publication timed to coincide with the release of the movie Harry Potter and the Deathly Hallows (Part 1), this book will be the definitive guide for all fans looking to appreciate the series on a deeper level. Covers a range of intriguing topics such as the redemption of Severus Snape, the power of love, and destiny in the wizarding world Gives you a new perspective on Harry Potter characters, plot lines, and themes Makes a perfect companion to the Harry Potter books and movies Packed with interesting ideas and insights, The Ultimate Harry Potter and Philosophy is an ideal companion for anyone interested in unraveling the subtext and exploring the greater issues at work in the story.

However important the magic of wands, brooms, cauldrons, potions, and spells might be to the vivid story telling of [the Harry Potter] books, it is merely incidental to their philosophy of life. I can't count the number of times I've heard someone in a business context say something like "I wish I could just magically solve all these problems" or "I'll try my best to deal with this, but remember, I'm no magician." What is particularly interesting is that the most difficult problems that the people in Harry's world face are rarely solved with just magic, but rather by the use of intelligence, reasoning, planning, courage, determination, persistence, resourcefulness, creativity, fidelity, friendship, and many other qualities traditionally known by the philosophers in our world as virtues. The meaning of life is not to be found in elixirs or incantations, secret words or exotic objects with esoteric powers, but in real moral virtue and the magic of what it can help us do. J. K. Rowling's novels about Harry Potter and the Hogwarts School of Witchcraft and Wizardry have captured the imaginations of people everywhere. In IF HARRY POTTER RAN GENERAL ELECTRIC, bestselling business author Tom Morris (IF ARISTOTLE RAN GENERAL MOTORS) uncovers the values and timeless truths that underlie Rowling's hugely popular books and illuminate the lessons they offer to all of

us in our careers and daily lives. But, you say, Harry Potter lives in a world of magic? What can we possibly learn to apply to our own careers and everyday lives? Morris shows that the most difficult problems Harry and his friends face are rarely solved by the use of magic alone. Rather, they are conquered by intelligence, reasoning, determination, creativity, friendship, and a host of other classic virtues—the very qualities, in fact, that make for success in every aspect of our lives. Blending an array of provocative examples from the novels with thought-provoking commentary on contemporary management practices, *IF HARRY POTTER RAN GENERAL ELECTRIC* offers readers a master's course on leadership and ethics, told in an engaging and insightful way.

This political analysis of Harry Potter uses the beloved wizarding world to introduce readers to the equally murky and intimidating world of politics. Rowling's work provides us with entries into all of the most important political questions in history, from terrorism and human rights to the classic foundations of political thought.

This book takes a look at the arc of the storyline in Harry Potter, digging below the surface to explore ethical, mythological, and religious meanings in J.K. Rowling's best-selling series. Why do we find ourselves so intrigued with the tale of Harry Potter? Many of the millions who passionately read the Harry Potter series found they could relate to the details, dreams, and fears of Harry's life. From a phoenix that dies and rises again to Dumbledore, a character who appears in a realm beyond death, there can be little doubt that Rowling's story delves into profound themes and ideas. She tackles issues of grief, responsibility, individual excellence, and heroism in the face of violence and corruption. This philosophical analysis shows that if, in fact, we do find ourselves reflected in Harry's story, then we may also find that our destiny and individual potential resonates with his as well.

A philosophical look at the movie *Inception* and its brilliant metaphysical puzzles Is the top still spinning? Was it all a dream? In the world of Christopher Nolan's four-time Academy Award-winning movie, people can share one another's dreams and alter their beliefs and thoughts. *Inception* is a metaphysical heist film that raises more questions than it answers: Can we know what is real? Can you be held morally responsible for what you do in dreams? What is the nature of dreams, and what do they tell us about the boundaries of "self" and "other"? From Plato to Aristotle and from Descartes to Hume, *Inception and Philosophy* draws from important philosophical minds to shed new light on the movie's captivating themes, including the one that everyone talks about: did the top fall down (and does it even matter)? Explores the movie's key questions and themes, including how we can tell if we're dreaming or awake, how to make sense of a paradox, and whether or not inception is possible Gives new insights into the nature of free will, time, dreams, and the unconscious mind Discusses different interpretations of the film, and whether or not philosophy can help shed light on which is the "right one" Deepens your understanding of the movie's multi-layered plot and dream-infiltrating characters, including Dom Cobb, Arthur, Mal, Ariadne, Eames, Saito, and Yusuf An essential companion for every dedicated *Inception* fan, this book will enrich your experience of the *Inception* universe and its complex dreamscape.

Why not take seriously the claim that Harry Potter's world intertwines with our own? In this timely yet otherworldly volume, more than a dozen scholars of international relations join hands to demonstrate how this well-loved artifact of popular culture reflects and shapes our own lifeworld. A wide range of historical and sociological sources shows how Harry's world contains aspects of our own. Practices such as quidditch dovetail quite clearly with 'muggle' sports, and the very British-ness of the books has, in translation into languages such as Turkish and Arabic, been transformed to reflect these unique cultures. Chapters on the political economy of the franchise as well as the scholarly problems of studying popular culture frame what is essentially a highly info-taining read.
