The McLaren MP4/4 is the iconic Honda V6 turbo-powered F1 car built by McLaren for the 1988 grand prix season, driven by Ayrton Senna and Alain Prost.

Remarkably, the car won all but one race during 1988, and took McLaren's then-new recruit Senna to his first Drivers' World

File Type PDF

Honda Bf 15

Championship after a

season-long battle with
team-mate Prost.

McLaren achieved an
astonishing 10 one–two
finishes with the car,
and suffered only two
car-related retirements
during the season. The
MP4/4 is still
statistically the most
dominant F1 car ever
built. Ironically, the fact
that McLaren was

Honda Bf 15

Service Manual

already an enormously successful and well-resourced team prior to 1988 has led to the assumption that producing another winning car in the form of the MP4/4 was simply business as usual. The truth is rather different, with many challenges along the way, mistakes to resolve and, as ever in motor

racing, an element of luck, all playing a part in the MP4/4's extraordinary success. A wealth of previously unpublished archive material, including original technical drawings and team documentation, provides fascinating new insight into the design and build of the MP4/4. Produced with the full cooperation

of McLaren, and unique access to a race-winning MP4/4 chassis, this manual tells for the first time the accurate story of the design, engineering and operation of one of F1's most iconic cars, featuring extensive and often candid input from the designers, engineers and drivers involved.

The McLaren story:

The Parrotlet, or Pocket
Parrot, is indigenous to
regions of Central and
South America, Mexico,
and the Caribbean
Islands. Their natural
habitats are diverse,

ranging from forests to semi-arid regions. They are the smallest parrot species in the world and are characterised by their beautiful plumage and big personalities!

This book will introduce you to the various species of these pint-sized parrots by discussing their appearance and biology, typical behaviour,

reproduction and

breeding, their feeding needs, socialisation and

bonding, how to (try to)

train them, and what

makes these feathery

bundles of energy

entertaining and unique.

It will also tell you what

you need to know in

order to decide whether

or not this is the pet for

you and, if it is, where

to buy one, how to

select your bird or birds,

what you need to buy before you bring it home, and how to take proper care of it. The owner must know what Parrotlets require with regards to their environment. The cage and the necessary equipment is examined in this book as these all impact on the health and happiness of captive

birds, especially active and intelligent ones like these. The Parrotlet is susceptible to the same bacterial, viral, parasitic and fungal infections and infestations that other birds may contract. Anyone who is serious about owning one needs to know what to look for and how to deal with common conditions. There is also
