A FINALIST for the Booker Prize, the National Book Critics Circle John Leonard Prize, the VCU/Cabell First Novelist Prize, the Lambda Literary Award, the NYPL Young Lions Award, and the Edmund White Debut Fiction Award “A blistering coming of age story” —O: The Oprah Magazine Named a Best Book of the Year by The New York Times, The Washington Post, New York Public Library, Vanity Fair, Elle, NPR, The Guardian, The Paris Review, Harper’s Bazaar, Financial Times, Huffington Post, BBC, Shondaland, Barnes & Noble, Vulture, Thrillist, Vice, Self, Electric Literature, and Shelf Awareness A novel of startling intimacy, violence, and mercy among friends in a Midwestern university town, from an electric new voice. Almost everything about Wallace is at odds with the Midwestern university town where he is working uneasily toward a biochem degree. An introverted young man from Alabama, black and queer, he has left behind his family without escaping the long shadows of his childhood. For reasons of self-preservation, Wallace has enforced a wary distance even within his own circle of friends—some dating each other, some feigning straightness. But over the course of a late-summer weekend, a series of confrontations with colleagues, and an unexpected encounter with an ostensibly straight, white classmate, conspire to fracture his defenses while exposing long-hidden currents of hostility and desire within their community. Real Life is a novel of profound and lacerating power, a story that asks if it’s ever really possible to overcome our private wounds, and at what cost.

Anda loves Coarsegold Online, the massively-multiplayer role playing game that she spends most of her free time on. It’s a place where she can be a leader, a fighter, a hero. It’s a place where she can meet people from all over the world, and make friends. Gaming is, for Anda, entirely a good thing. But things become a lot more complicated when Anda befriends a gold farmer -- a poor Chinese kid whose avatar in the game illegally collects valuable objects and then sells them to players from developed countries with money to burn. This behavior is strictly against the rules in Coarsegold, but Anda soon comes to realize that questions of right and wrong are a lot less straightforward when a real person’s real livelihood is at stake. From acclaimed teen author Cory Doctorow and rising star cartoonist Jen Wang, In Real Life is a sensitive, thoughtful look at adolescence, gaming, poverty, and culture-clash. This title has common Core connections. At the Publisher’s request, this title is being sold without Digital Rights Management Software (DRM) applied.

A confessional, uplifting memoir from the beloved YouTube personality. It’s not where you begin that matters. It’s where you end up. Twenty-three year old Joey Graceffa has captured the hearts of millions of teens and young adults through his playful, sweet, and inspirational YouTube presence (not to mention his sparkling eyes and perfect hair). Yet, Joey wasn’t always comfortable in his skin, and in this candid memoir, he thoughtfully looks back on his journey from pain to pride, self-doubt to self-acceptance. To his fans, Joey is that best friend who always captures the brighter side of life but also isn’t afraid to get real. In the pages of his first book, he opens up about his years of struggling with family hardships and troubles at school, with cruel bullying and the sting of rejection. He tells of first loves and losses, embarrassing moments and surprising discoveries, loneliness, laughter, and life-changing forks in the road, showing us the incalculable value of finally finding and following your true passion in this world. Funny, warm-hearted, and inspiring, Joey Graceffa’s story is a welcome reminder that it’s not where you begin that matters, but where you end up.

In Real Life: An Online Love Story is the first of its kind—a bilingual novel-in-poetry written by popular Spanish-language poet Leticia Sala. In Real Life is not only about a young Barcelona woman who finds romance online thousands of miles away in New York City, it is also an ode to the titanic effort required in staying loyal to a commitment and her own individuality in the silicon age.? Told in a poetic key, the fate of this couple, whose relationship begins with love at first like, offers a fractured mosaic of essential moments crowded with insecurities and urban neuroses, both contemporary and universal. The characters in the work of Leticia Sala seek light in the chaos churned out by modern culture and are always treated by the author with compassion, regard, and respect for their unfolding desires. In Real Life captures our infatuation with technology and finding new ways of relating to one another, our fascination with travel and language, and our age-old obsession with that right to love and feel loved.

Fifteen-year-old math prodigy Seth Gordon knows exactly what he wants to do with his life—play video games. Every spare minute is devoted to honing his skills at Starfare, the world’s most popular computer game. His goal: South Korea, where the top pros are rich and famous. But the best players train all day, while Seth has school and a job and divorced parents who agree on only one thing: "Get off that damn computer." Plus there’s a new distraction named Hannah, an aspiring photographer who actually seems to understand his obsession. While Seth mopes about his tournament results and mixed signals from Hannah, Team Anaconda, one of the leading Korean pro squads, sees something special. Before he knows it, it’s goodbye Kansas, goodbye Hannah, and hello to the strange new world of Korea. But the reality is more complicated than the fantasy, as he faces cultural shock, disgruntled teammates, and giant pots of sour-smelling kimchi. What happens next surprises Seth. Slowly, he comes to make new friends, and discovers what might be a breakthrough, mathematical solution to the challenges of Starcraft. Delving deeper into the formulas takes him in an unexpected direction, one that might just give him a new focus—and reunite him with Hannah.

From the host of MTV’s #1 show Catfish comes the definitive guide about how to connect with people authentically in today’s increasingly digital world. IN REAL LIFE: Love, Lies & Identity in the Digital Age As the host of the wildly popular TV series Catfish which investigates online relationships to determine whether they are based on truth or fiction (spoiler: it’s almost always fiction), Nev has become the Dr. Drew of online relationships. His clout in this area springs from his own experience with a deceptive online romance, about which he made a critically acclaimed 2010 documentary (also called Catfish). In that film Nev coined the term "catfish" to refer to someone who creates a false online persona to reel someone into a romantic relationship. The meme spread rapidly. Now Nev brings his expertise to the page, sharing insider secrets about: -what motivates catfish -why people fall for catfish -how you can avoid being deceived -rules for dating -- both online and off -how to connect authentically with others over the internet -how to turn an online relationship into a real-life relationship ...and much, much more. Peppered throughout with Nev’s personal stories, this book delves deeply into the complexities of online identity. Nev shows us how our digital lives are affecting our real lives, and provides essential advice about how we should all be living and loving in the era of social media.

USA Today National Bestseller Publisher’s Weekly National Bestseller Advice on how to have healthy, dynamic relationships from Raashaun (DJ Envy) and Gia Casey, revealing their secrets to navigating marriage, family, and faith Gia and Raashaun Casey met when they were two teenagers attending the same high school in Queens. They have been together for an astounding 27 years and married for 20. They have remained together through Raashaun’s growing celebrity, a devastating (and very public) cheating scandal, and the births of six children. Now, more than a quarter of a century into their relationship, they are stronger and more committed to each other than they’ve ever been, and their fans are clamoring to know how they did it. In Real Life, Real Love, Gia and Raashaun explore the entire chronology of their love story with remarkable vulnerability, searing honesty, and a lot of humor. It’s a riveting narrative about how to grow together, an aspirational guidebook for people who seek the same unconditional love in their relationships, and an in-depth look at how to remain equals after being thrust into the public eye.

From the acclaimed author of Brooklyn, Burning comes Guy in Real Life, an achingly real and profoundly moving love story about two teens that National Book Award–finalist Sara Zarr has called "wholly original and instantly classic." It is Labor Day weekend in Saint Paul, Minnesota, and boy and girl collide on a dark street at two thirty in the morning: Lesh, who wears black, listens to metal, and plays MMOs; Svetlana, who embroiders her skirts, listens to Björk and Berlioz, and dungeon masters her own RPG. They should pick themselves up, continue on their way, and never talk to each other again. But they don't. This is a story of the roles we all play—at school, at home, online, and with our friends—and the one person who might be able to show us who we are underneath it all.
