Etymology 1 From Middle English instant (“infinitely short period of time”), from Old French instant (“assiduous, at hand”, adj), from Latin instans, instant- (“present, pressing, urgent”, literally “standing near”), from in + stāre (“to stand”). Compare Old English instede (“immediately, on the spot, at once”).

Che cos'è il latino? L'alfabeto, la pronuncia, le parti del discorso... la frase semplice, gli aggettivi, i pronomi... fino alle coniugazioni, la frase complessa, le parti variabili del discorso, il periodo ipotetico. Un manuale scritto da una docente universitaria giovane, brillante e ironica, che saprà trasformare ogni lezione in un'opportunità di scoprire qualcosa e di farsi una risata. Il volume si conclude con una parte dedicata alle espressioni latine nell'italiano contemporaneo e fornisce un ricco glossario. Nel libro si alternano spiegazioni, esercizi di varia tipologia (anche enigmistica in latino!), box di approfondimento su letteratura, terminologia, lessico, curiosità e schede che raccontano la cultura latina e romana (come numerazione e calendario, onomastica, giochi e feste, mitologia e religione, cibo, moda, vita quotidiana ecc.). Un volume che farà ricredere anche i più scettici sull'importanza del metodo. Perché anche il latino può essere "instant": semplice, diretto, divertente.

Hispanic or Latino? Mexican American or Chicano? Social labels often take on a life of their own beyond the control of those who coin them or to whom they are applied. In "Ethnic Labels, Latino Lives" Suzanne Oboler explores the history and current use of the label "Hispanic", as she illustrates the complex meanings that ethnicity has acquired in shaping our lives and identities. Exploding the myth of

## File Type PDF Instant Latino

cultural and national homogeneity among Latin Americans, Oboler interviews members of diverse groups who have traditionally been labelled "Hispanic", and records the many different meanings and social values which they attribute to this label. She also discusses the historical process of labelling groups of individuals and shows how labels affect the meaning of citizenship and the struggle for full social participation in the United States. Ultimately, she rejects the labelling process altogether, having illustrated how labels can obstruct social justice, and vary widely in meaning from individual to individual. Though we have witnessed in recent years the fading of the idealized image of US society as a melting pot, we have also realized that the possibility of recasting it in multicultural terms is problematic. "Ethnic Labels, Latino Lives" aims to understand the role that ethnic labels play in our society and brings us closer towards actualizing a society which values cultural diversity.

In the United States, people from all different backgrounds live together. More than one in eight people in the United States are Hispanic—but they come from different lands and backgrounds. As all these people have come to America, they have shared their foods with the United States. Some of our favorite treats—tacos, salsa, and tortilla chips, for example—come to us from the Hispanic American community. Find out how Latino Americans have added flavor to our country!

Features the writing of Sandra Cisneros, Oscar Hijuelos, Rudolfo Anaya, Julia

Alvarez, and others

Addresses issues that must be examined critically within multicultural education, such as self-determination, decolonization, voice, race, class, gender, and language.

The first book on supporting and developing Hispanic employees in any organization identifies three overarching concepts that shape Hispanic culture and explores how they influence workplace behavior and expectations. Written by a distinguished Hispanic author and authority on Hispanic economic behavior, Hispanics are the largest minority group and the fastest growing demographic in the United States—they are already 15% of the population and 22% of the workforce, and it's estimated that by 2050 those numbers will go up to 36% and 55%. In this much-needed new book, Louis Naevar helps non-Hispanic employers and colleagues understand how Hispanics see the business world—and the world in general—so they can better support and develop this dynamic group of workers. Drawing on his own ethnic background and years of experience as director of the organization Hispanic Economics, Naevar identifies three concepts that shape Hispanic culture and often result in behaviors and beliefs very different than, and sometimes seemingly at odds with, those of non-Hispanics. He explores subtle

## File Type PDF Instant Latino

nuances within the Hispanic community—which is no more monolithic than the “European” community—that will help employers appreciate differences and tensions between Hispanic workers. With this as an overarching framework, and using a wealth of specific examples, Nevaer shows how to develop Hispanic-friendly approaches in every aspect of the modern workplace, from recruitment, retention and evaluation to training, mentoring, and labor relations. As Hispanics become an ever-larger segment of the workforce, organizations who fail to make them feel welcome and valued risk losing access to a significant source of talent and innovation, not to mention a connection to a major evolving market. *Managing Hispanic and Latino Employees* is an invaluable resource for creating an environment where Hispanic workers feel comfortable, recognized and rewarded.

How Latina teachers are making careers and helping students stay in touch with their roots. Latina women make up the fastest growing non-white group entering the teaching profession at a time when it is estimated that 20% of all students nationwide now identify as Latina/o. Through ethnographic and participant observation in two underperforming majority-minority schools in Los Angeles, as well as interviews with teachers, parents and staff, *Latina Teachers* examines the

## File Type PDF Instant Latino

complexities stemming from a growing workforce of Latina teachers. The teachers profiled use Latino cultural resources and serve as agents of ethnic mobility. They actively teach their students how to navigate American race and class structures while retaining their cultural roots, necessary tactics in an American education system that has not fully caught up with the nation's demographic changes. Flores also explores the challenges faced by Latina teachers, including language barriers and cultural acclimation, and professional inequalities that continue to affect women of color at work. An unprecedented look at an understudied population, *Latina Teachers* presents an important picture of the women who are increasingly shaping the way America's children are educated.

*Hispanic Marketing: The Power of the New Latino Consumer* focuses on using cultural insights to connect with Latino consumers.
