Produced by the Royal Society of Chemistry, these cards are designed to support the teaching of materials and their properties at primary level. The cards contain an assortment of images and scientific words which may be used for a variety of games including: a linking game, 'guess my card' and bingo to reinforce learning.

Materials Cards for Primary Science | STEM
When a player is released in a card his chemistry style is basic (BAS), the starter style. It means that all his six attributes may be improved in the same way by one arrow. A single green arrow gives a small boost to the associated attribute, two green arrows give a medium boost and three give the maximum boost possible.
