Pianist George Shearing is that rare thing, a European jazz musician who became a household name in the US, as a result of the "Shearing sound"—the recordings of his historic late 1940s quintet. Together with his unique "locked hands" approach to playing the piano, Shearing's quintet with guitar and vibraphone in close harmony to his own playing revolutionized small group jazz, and ensured that after seven years as Melody Maker's top British pianist, he achieved even greater success in America. His compositions have been recorded by everyone from Sarah Vaughan to Miles Davis, and his best known pieces include "Lullaby of Birdland", "She" and "Conception". His story is all the more remarkable because Shearing was born blind. His candid reminiscences include a behind the scenes experience of New York's 52nd Street in its heyday, as well as memories of a vast roll-call of professional colleagues that includes all the great names in jazz.

Appealing to music majors and nonmajors alike, JAZZ: THE FIRST 100 YEARS, ENHANCED MEDIA EDITION, 3e delivers a thorough introduction to jazz as it explores the development of jazz from its nineteenth-century roots in blues and ragtime, through swing and bebop, to fusion and contemporary jazz styles. Completely up to date, the text devotes a full third of its coverage to performers from the 1960s to the present day. It also includes expansive coverage of women in jazz. Biographies, social history, and timelines at the beginning of chapters put music into context--giving students a true feel for the ever-changing sound of jazz.
