Clinical Medical Assisting begins with Kinn! Elsevier's Kinn's The Clinical Medical Assistant, 13th Edition provides you with the real-world clinical skills that are essential to working in the modern medical office. An applied learning approach to the MA curriculum is threaded throughout each chapter to help you further develop the tactile and critical thinking skills necessary to assist with medications, diagnostic procedures, and surgeries. Paired with our adaptive solutions, real-world simulations, EHR documentation and HESI remediation and assessment, you will learn the leading skills of modern clinical medical assisting in the classroom! Applied approach to learning helps you use what you've learned in the clinical setting. Clinical procedures integrated into the TOC provide you with a quick reference. Detailed learning objectives and vocabulary with definitions highlight what's important in each chapter. Step-by-step procedures explain complex conditions and abstract concepts. Rationales for each procedure clarify the need for each step and explains why it's being performed. Critiical thinking applications test your understanding of the content. Patient education and legal and ethical issues are described in relation to the clinical Medical Assistant's job. Threaded case scenarios help you apply concepts to realistic clinical situations. Portfolio builder helps you demonstrate clinical proficiency to potential employers. NEW! Chapter on The Health Record reviews how you will maintain and interact with the medical record. NEW! Chapter on Competency-Based Education helps you confidently prepare for today's competitive job market. NEW! Clinical procedure videos help you to visualize and review key procedures.

Use this study tool to master the content from your Today's Medical Assistant: Clinical & Administrative Procedures, 2nd Edition textbook! Corresponding to the chapters in the textbook by Kathy Bonewit-West, Sue Hunt, and Edith Applegate, this study guide helps you understand and apply the material with practical exercises, activities, flashcards, checklists, review questions, and more. Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments, and make it easy to track your progress. Laboratory assignment tables list the procedures in each chapter, including study guide page number references, and indicate the procedures shown on the DVDs. A pretest and posttest in each chapter measure your understanding with 10 true/false questions. Key term assessments include exercises to help in reviewing and mastering new vocabulary. Evaluation of Learning questions let you assess your understanding, evaluate progress, and prepare for the certification examination. Critical thinking activities let you apply your knowledge to real-life situations. Practice for Competency sections offer extra practice on clinical skills presented in the book. Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards. Updated content includes exercises for topics such as electronic medical records, advanced directives, HIPAA, emergency preparedness, ICD-10 coding, documentation, medical office technology, medical asepsis, vital signs, pediatrics, colonoscopy, IV therapy, and CLIA waived tests. New activities provide practice for the Today's Medical Assistant textbook's newest and most up-to-date content. New Emergency Protective Practices for the Medical Office chapter includes procedures, critical thinking questions, and other activities to help you understand emergency preparedness. New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step-by-step guide to this important procedure. New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs. New Practicum and externship activities on Evolve provide practice with real-world scenarios.
