Rooted in the observation that massive transitions in the church happen about every 500 years, Phyllis Tickle shows readers that we live in such a time right now. She compares the Great Emergence to other "Greats" in the history of Christianity, including the Great Transformation (when God walked among us), the time of Gregory the Great, the Great Schism, and the Great Reformation. Combining history, a look at the causes of social upheaval, and current events, The Great Emergence shows readers what the Great Emergence in church and culture is, how it came to be, and where it is going. Anyone who is interested in the future of the church in America, no matter what their personal affiliation, will find this book a fascinating exploration. Study guide by Danielle Shroyer.

' This pioneering book offers a unique constellation of essays focused on the important social and economic changes affecting educational institutions in China. It provides an in-depth examination of the potential and obstacles for business and management education in the world's second largest economy and most populated country. This volume is an essential resource for anyone with an interest in teaching, developing a new program, or entering into a joint venture in China. A wide range of topics, such as economic transition, pedagogical issues, professional training and alliance formation, are discussed from the standpoint of deans, educators, directors and consultants of educational institutions hailing from both the East and the West. Contents: Economic Transition and International Cooperation: Economic Transition and Management Skills: The Case of China (X Bai & P Enderwick) Managing in a Relation-based Environment: A Teaching Agenda for International Business (S Li & S Maurer) Pedagogical Issues in China East Meets West: The Dilemma of Management Pedagogy in China (X Wang et al.) Meeting China's Need for Case-Based Teaching Material: The Ivey Business School Experience (P W Beamish et al.) Professional Business Training in China: Trends and Practices in Management Development in China (N Lynton & F Bressot) Building a Qualified Team of Management Consultants: The Professional Training and Certification of Management Consultants in China (W Zhang & Y Zhang) A Cross-Cultural, Cross-Discipline Business Education Program in Mainland China: Training a Managerial Workforce for China's Economic Transition (H Kleinmann & L Lu) and other papers Readership: Deans, educators, consultants, researchers and policy makers dealing with international business; business people interested in the Chinese social and economic environments.

Keywords: Chinese; China; Economy; Education; Institutions; Alliance; Pedagogy; Training; Joint Ventures; MBA

Schools; Business; Management Key Features: The most comprehensive and authoritative book on Chinese business and management education Distinguished contributors include Paul Beamish from the Richard Ivey School of Business of the University of Western Ontario An essential read before departure to China whether you are going to teach, negotiate, or plan to enter the market Provides a good reference on emergent labor markets that exist for highly educated managerial talent in China Reviews: "This volume contains a wealth of valuable information and data on technical aspects of business education and delivery systems, including the Chinese focus on entrepreneurship. It is a worthy reference manual for anyone who seeks to understand the cross-fertilization between Western business education and emerging higher education in China." Robert G Hawkins Emeritus Professor of Management and Economics Georgia Institute of Technology "This book will be useful for both Western as well as Chinese instructors in business education. On the one hand, the Western instructors will pick up useful tips to manage Chinese classes. On the other, the Chinese instructors can foresee

challenges in teaching Western management know-how."Academy of Management Learning & Education '

This is a story of battle, sudden death, siege, plot and counterplot set in 1202 during the turbulent reign of King John of England. The tale starts with the rescue of John's mother, Eleanor of Aquitaine and sweeps through Normandy, England and Wales seen through the eyes of a young knight, Roger de Clare, an aide to William Marshal, Earle of Pembroke and a pivotal figure of this era. John has to contend with Philip, king of France, who wants his country back, all of it; and with a restless set of Barons who could start a civil war if they don't get what they want. Marshal sees himself as a balance between all the opposing forces and uses Roger ruthlessly as his agent to achieve his ends in the secret winter war against Philip. Young Arthur, Count of Brittany and John's nephew, disappears and Roger becomes his keeper, smuggling him out of France to Wales to hold him safe against John's enemies who are searching for the boy to use him against John. The future of the English throne hangs in the balance.

Papers presented at a conference jointly organized by Indian Institute of Foreign Trade, and Jagan Institute of Management Studies, on 27 September, 1997.
