"Provide explicit, systematic phonics instruction and practice in just 15 to 20 minutes a day! Daily Phonics helps students gain the phonemic awareness, decoding, and word-study skills they need to read proficiently."--Publisher's website.

Reading Made Easy with Blend Phonics for First Grade was first published in 1980 by Hazel Logan Loring, who had taught it for many years in her first grade classes. It features instruction in directional guidance, which helps prevent reversals in reading. It has also proven very valuable in helping older students with reading problems. The accompanying Blend Phonics Fluency Drills were written by Mr. Donald L. Potter to help students to develop high levels of decoding fluency (accuracy and speed). The Fluency Drills have proven particularly valuable in helping struggling readers to overcome the whole-word guessing habit and improve reading efficiency.

"Each Month-by-month phonics book explains how to help all children learn to read and write through systematic, multilevel instruction as part of the Working with words block in the Four-Blocks framework. These books include step-by-step activities that instill the desire to learn to read and write, develop phonemic awareness, encourage letter and sound recognition, teach essential language and print concepts, and extend vocabulary"--Back cover.

Teachers are introduced to lessons that cover key literacy skills included in most fifth-grade curricula. Each activity leads students through a systematic process for learning prefixes, suffixes, and roots and how these word parts go together to form related words. All lessons include practice on manipulating letters into complex letter combinations and sorting words according to the patterns. All lessons conclude with a transfer step which helps students transfer what they have learned to reading and spelling new words.
