Ancient Egypt: Did aliens build the pyramids
...
The Ancient Egyptian Pyramids are one of the greatest mysteries of the ancient world. These structures are so impressive for the time that they were built in! The Pyramids were built as the burial places for the Pharaohs. This would be their final resting place before they went into the afterlife which was part of the Egyptian religion.

Pyramids Facts for Kids (All You Need to Know)
The Great Pyramid of Giza is one of the Seven Wonders of the Ancient World. It is the only one to survive into modern times. The Ancient Egyptians covered the faces of pyramids with polished white limestone, containing great quantities of fossilized seashells.

Pyramid
— Wikipedia
The Red Pyramid, also called the North Pyramid, is the largest of the pyramids located at the Dahshur necropolis in Cairo, Egypt.Named for the rusty reddish hue of its red limestone stones, it is also the third largest Egyptian pyramid, after those of Khufu and Khafra at Giza.It is also believed to be Egypt's first successful attempt at constructing a "true" smooth-sided pyramid.

Red Pyramid
— Wikipedia
A pyramid is a structure, usually of stone, built in the shape of a pyramid. From ancient to modern times people in many different parts of the world have built such structures. The word "pyramid" comes from the Greek word pyramis which meant "wheat cake." The ancient Egyptian word for them was something like "Mer". The Great Pyramid of Giza was one of the Seven Wonders of the ancient world. The first pyramids were built in 2630 B.C. The oldest known pyramid was made for King Djoser of the third

Pyramid
— Simple English Wikipedia: the free encyclopedia
Egyptian pyramids were built to preserve tombs. In ancient Egypt, tombs were only built for pharaohs and not the general population, but because the Egyptian dynasties lasted for such a long period there are quite a few tombs still in existence today. The pharaohs' tombs were meant to preserve their bodies and souls.

Using writing, objects, tools and drawings, archaeologists are able to piece together the story of the ancient Egyptians. Here we meet an Egyptian who was summoned to leave his family when he was...

Building the pyramids (pt 1&5) - KS2 History - BBC Bitesize
Imhotep, the Architect for the Step Pyramid, finally got the idea of putting a three-layer mastaba for his Pharaoh Zoser on the Step Pyramid of Saqqara, the first building in stone in the history of the world. The Step Pyramid, where the pharaoh Zoser was placed underground in a rock pit, was the same basic burial but a fancy mastaba. That was not a true pyramid with smooth sides.

Ancient Egypt and the History of Pyramids
The Egyptian pyramids are ancient pyramid-shaped masonry structures located in Egypt. As of November 2008, sources cite either 118 or 138 as the number of identified Egyptian pyramids. Most were built as tombs for the country's pharaohs and their consorts during the Old and Middle Kingdom periods. The earliest known Egyptian pyramids are found at Saqqara, northwest of Memphis, although at least one step-pyramid-like structure has been found at Saqqara, dating to the First Dynasty; Mastaba 3808.

Egyptian pyramids
— Wikipedia
Ancient Egypt pyramid
Ancient Egyptians created them to serve as tombs for the great pharaohs and they were designed based on structures called mastabas (primitive ritual pyramids), that were built by putting stones in an ascending sequence. Those that were built in Mesoamerica (including Mexico) were ceremonial centers dedicated to the gods.
