The Crisis of the Seventeenth Century uncovers new pathways to understanding this seminal time. Neither Catholic nor Protestant emerges unscathed from the examination to which Trevor-Roper subjects the era in which, from political and religious causes, the identification and extirpation of witches was a central event.

The 'crisis of the seventeenth century' was specifically associated historically with the rise of 'mercantilism' as an ideology. But mercantilism generically is simply the response of all actors (except the very strongest) in a tight economy to maintain the level of profit by cornering markets in the short run, and by increasing overall efficiencies of production in the middle run.

Get Access. IN the first part of this essay I wish to suggest that the European economy passed through a 'general crisis' during the seventeenth century, the last phase of the general transition from a feudal to a capitalist economy. Since z 300 or so, when something clearly began to go seriously wrong with European feudal society,' there have been several occasions when parts of Europe trembled on the brink of capitalism.

The seventeenth-century general crisis, more than most historical conceptions, is based on theory. Its various theorists all supposed that something was guiding and challenging the actors that few if any of them could fully understand. Thus, the crisis does not emerge directly from the testimony of contemporaries.

The "General Crisis" is the term used by some historians to describe the period of widespread global conflict and instability that occurred from the early 17th century to the early 18th century in Europe and in more recent historiography in the world at large. The concept is much debated by historians; there is no consensus. The term was coined by Eric Hobsbawm in his pair of 1954 articles entitled "The Crisis of the Seventeenth Century" published in Past and Present.
