This book provides classroom approaches to analyses of universal themes in literature reflecting an array of relationships with self, environment, and the world with which adolescents engage. These themes include relationships with others, such as friendship and love, loss and betrayal, anger and consequences, and finding hope for the future.

In this Michael L. Printz Honor Book, Lily wishes she could be like the other girls in her class. But how can she? As the only sensible person in her family, she never has time to hang out with friends. Someone has to stay home to look after her brother. Maybe she should fall in love! What could be less sensible than that? When her grandmother invites the whole family to a party, Lily cannot imagine how they will make it through the day. Her mother is always bringing home strange people. Lily doesn't even know her father. Her grandfather has disowned her brother. Her brother has a new girlfriend that no one has met. To top it all off, that day when her eye caught Daniel Steadman's just for a moment, she felt all woozy inside. If that was love, she isn't sure she likes the feeling. As the party approaches, all Lily can hope for is one whole and perfect day. Is it too much to ask?

Contributions by Megan Brown, Jill Coste, Sara K. Day, Rachel Dean-Ruzicka, Rebekah Fitzsimmons, Amber Gray, Roxanne Harde, Tom Jesse, Heidi Jones, Kaylee Jangula Mootz, Leah Phillips, Rachel L. Rickard Rebellino, S. R. Toliver, Jason Vanfosson, Sarah E. Whitney, and Casey Alane Wilson While critical and popular attention afforded to twenty-first-century young adult literature has exponentially increased in recent years, classroom materials and scholarship have remained static in focus and slight in scope. *Twilight*, *The Hunger Games*, *The Fault in Our Stars*, and *The Hate U Give* overwhelm conversations among scholars and critics—but these are far from the only texts in need of analysis. *Beyond the Blockbusters: Themes and Trends in Contemporary Young Adult Fiction* offers a necessary remedy to this limiting perspective, bringing together essays about the many subgenres, themes, and character types that have until now been overlooked. The collection tackles a diverse range of topics—modern updates to the marriage plot; fairy tale retellings in dystopian settings; stories of extrajudicial police killings and racial justice. The approaches are united, though, by a commitment to exploring the large-scale generic and theoretical structures at work in each set of texts. As a collection, *Beyond the Blockbusters* is an exciting entryway into a field that continues to grow and change even as its works captivate massive audiences. It will prove a crucial addition to the library of any scholar or instructor of young adult literature.

"Like *A Wrinkle in Time* (Miranda's favorite book), *When You Reach Me* far surpasses the usual whodunit or sci-fi adventure to become an incandescent exploration of 'life, death, and the beauty of it all.'" —The Washington Post This Newbery Medal winner that has been called "smart and mesmerizing," (The New York Times) and "superb" (The Wall Street Journal) will appeal to readers of all types, especially those who are looking for a thought-provoking mystery with a mind-blowing twist. Shortly after a fall-out with her best friend, sixth grader Miranda starts receiving mysterious notes, and she doesn't know what to do. The notes tell her that she must write a letter—a true story, and that she can't share her mission with anyone. It would be easy to ignore the strange messages, except that whoever is leaving them has an uncanny ability to predict the future. If that is the case, then Miranda has a big problem—because the notes tell her that someone is going to die, and she might be too late to stop it. Winner of the Boston Globe-Horn Book Award for Fiction A New York Times Bestseller and Notable Book Five Starred Reviews A Junior Library Guild Selection "Absorbing." —People "Readers ... are likely to find themselves chewing over the details of this superb and intricate tale long afterward." —The Wall Street Journal "Lovely and almost impossibly clever." —The Philadelphia Inquirer "It's easy to imagine readers studying Miranda's story as many times as she's read L'Engle's, and spending hours pondering the provocative questions it raises." —Publishers Weekly, Starred review

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Matt is six years old when he discovers that he is different from other children and other people. To most, Matt isn't considered a boy at all, but a beast, dirty and disgusting. But to El Patron, lord of a country called Opium, Matt is the guarantee of eternal life. El Patron loves Matt as he loves himself — for Matt is himself. They share the exact same DNA. As Matt struggles to understand his existence and what that existence truly means, he is threatened by a host of sinister and manipulating characters, from El Patron's power-hungry family to the brain-deadened eejits and mindless slaves that

## Download File PDF Themes Found In Young Literature A Comparative

toil Opium's poppy fields. Surrounded by a dangerous army of bodyguards, escape is the only chance Matt has to survive. But even escape is no guarantee of freedom... because Matt is marked by his difference in ways that he doesn't even suspect.

Expanding outward from previous scholarship on gender, queerness, and heteronormativity in children's literature, this book offers fresh insights into representations of sex and sexuality in texts for young people. In this collection, new and established scholars examine how fiction and non-fiction writing, picture books, film and television and graphic novels position young people in relation to ideologies around sexuality, sexual identity, and embodiment. This book questions how such texts communicate a sense of what is possible, impossible, taboo, or encouraged in terms of being sexual and sexual being. Each chapter is motivated by a set of important questions: How are representations of sex and sexuality depicted in texts for young people? How do these representations affect and shape the kinds of sexualities offered as models to young readers? And to what extent is sexual diversity acknowledged and represented across different narrative and aesthetic modes? This work brings together a diverse range of conceptual and theoretical approaches that are framed by the idea of sexual becoming: the manner in which texts for young people invite their readers to assess and potentially adopt ways of thinking and being in terms of sex and sexuality.

In a near-future society that claims to have gotten rid of all monstrous people, a creature emerges from a painting seventeen-year-old Jam's mother created, a hunter from another world seeking a real-life monster.

This book provides classroom approaches to analysis of themes in young adult literature reflecting an array of relationships with self and the world with which adolescents engage daily. These themes include self-discovery, self-perception, differentiating between right and wrong, and making difficult choices complicated by issues of social justice.
